Daniel,

The department has no concerns with your use of IJOBS funding for the City's portion of necessary funding for the I-235 Deans Lake Outlet Sewer Phase II project.

Please let me know if you need anything further from for the department.

Thank you.

Subject: I235 Deans Lake Outlet Sewer Phase II

Tony,

As I mentioned in my voicemail message the City of Des Moines is planning on applying for I-Jobs funds to provide for the City's portion of funding on the I235 Deans Lake Outlet Sewer Phase II project. As part of the application process we need written verification that the City has consulted the appropriate program staff (IDOT) regarding potential duplication of benefits issues and that the City has provided notification of its intent to apply for I-Jobs funding on this project. We need to submit our application this week so if a letter is not possible please reply to this email with your verification. If you have any questions please give me a call.

Thanks,

Daniel W. Pritchard, P.E.
